FIRST SESSION, JUNIOR CLASS-5 months

THE DESOTO Cases Blearhed Domestics, Cases Bleached Domestics Commercial College, Unprecedented Low Prices

A with this College, is now inagurated. As a immporary arrangement, the Class meets in the suffix West-First Publicating House, No. IT Search Court Straver.

The course of loaistection is eminently practical as well as scientific embracing everything necessary to fit young men for the efficient discharge of the duties of an Accountant and Book keeper in a merchants office. The student goes through precisely the same routine of learned into positing into his ledger, and using his books, and then making out his balance sheet, as he would in actual business. This process is renewed an indefinite number of times, till he becomes as familiar with these operations and as expert in performing them, as if he had spent a long apprenticeship in the Counting House.

OF WHAT, SIR?

WHY, ONE OF THE "FINLEY

DASHERS."

WHY DO YOU ASK ME THAT QUESTION, SIRP

Because one of them is needed, no doubt, and that badly, among your horselield convenences, that the laborious and troublesome Hem of churning may become an agreeable recession to the ladies, upon whom such duties usually devolve. What's the article? What's the description? What's it do, pray, Sir?

in is placed in the "old fashioned" wooden or inh charm, and worked in the same man-precisely as the "old Dasher". these two wheels revolve rapidly and in counter directions every up and down movement of the "Dasher," completely disengaging and cutting the ream into the minutest particles; while at the same time by aid of the "air beds" in each division of the wheels, keeps the whole bulk of the cream supplied with constant currents of fresh air, thus securing by the simplest process the true principles of "Good Botter Making" Well, sir, is the thing simple-very simple?

Why, so very simple when seen, that not a word of explanation is necessary. Why "Bid"" Aunt Dinah," or the eight year old child can both understand and use it, and couldn't for their lives imagine any other purpose for it. H. F. HEUKERT, Western Agent, Cineinnati. Long enough; well, my friend, does it make GOOD BUTTER and QUICK? It does not only make good Buffer, but aheat ONE POURTH MORE, to a given amount of cream, under like circumstances of quality and temperature, and in about ONE HALF THE TIME required by the use of the "old dasher". Am, however, quite ready to confess that it will not make Butter as quick as the boasted "Five Minute" and other "lightning" Churns, nor
